

Job title: Commissioning Engineer

Job summary

Cyberhomes is looking for an AV professional, with at least three years' AV installation experience to fill this customer-facing role within a well-established team.

You will be responsible for the testing and onsite commissioning of leading Home Automation/SMART Homes and AV entertainment projects, both within a time-frame and customers' expectations. The role would suit someone with strong communication skills, proven high-end AV installation experience and a commercial focus.

This is a full time permanent position primarily based at Cyberhomes' headquarters in Thame, Oxfordshire, with a requirement for regular travel to client sites.

Role responsibilities

System testing: Full functional testing of our AV racks prior to delivery and installation on site.

Installation: Working with our engineering team to install AV racks, plant room and in-room equipment to our very exacting standards and complete thorough testing.

User training: Providing handover of completed installations and undertaking training of clients so they get the most from their systems.

Maintain customer relationships: Excellent communication skills at all levels to maintain Cyberhomes' reputation for professionalism.

Person specification

The right candidate will be a highly-organised individual, with demonstrable commissioning skills and an Engineering degree—and relevant AV industry experience.

A working knowledge of the following is essential: Savant, Control4, HDMI matrix systems, TCP/IP networking, Lutron lighting control systems, Sonos, Satellite and TV distribution systems. Crestron experience would also be an advantage.

You will have excellent time keeping, attention to detail and take pride in the quality of your work.

A full clean driving licence and knowledge of the standard Microsoft Office suite are essential.

Rewards

As well as a competitive salary, bonus scheme and flexible holiday structure this is a great opportunity for the right person to join a team who are fundamental to the growth of Cyberhomes' business. Training on new products and technologies will be provided where appropriate.

You will be provided with company mobile phone, laptop and/or iPad and access to a company vehicle. Staff discounts are also available on the equipment we sell.

Although primarily based in Thame, you will be expected to travel throughout the UK (with some international travel) for extended periods of time.

This position offers a rewarding career path with ample opportunities for personal and professional development.

Company info

Cyberhomes is an award-winning installer of home automation and entertainment systems. We are active members of CEDIA and were finalists in the 2013 CEDIA Awards for the 'Best Home Cinema' and 2014 for 'Best Dressed Rack'. With a background in the broadcast industry, we take pride in our attention to detail to deliver amazing systems that consistently exceed our clients' expectations.

Application

Please email your CV, along with details of why you are suitable for this role, to hello@cyberhomes.co.uk

Deadline for applications is 30th January 2015.
