

Job title: Senior Engineer

Job summary

Cyberhomes is looking for an AV professional, with hands-on AV engineering and programming experience to fill this customer-facing role within a well-established team.

You will be responsible for the design and installation of leading Home Automation/SMART Homes and AV entertainment projects, both within a time-frame and customers' expectations. The role would suit someone with strong communication skills, proven AV design and installation experience and a commercial focus.

This is a full time permanent position primarily based either at Cyberhomes' headquarters in Thame, Oxfordshire or our London satellite offices, with a requirement for regular travel to client sites.

Role responsibilities

System design/specification: Implement the design and specification of equipment and cabling infrastructure to provide industry-leading systems for our clients.

Engineering/programming: Design of AV racks and system integration to our very exacting standards, programming of control systems and thorough off-site and on-site installation and testing.

User training: Providing handover of completed installations and undertaking training of clients so they get the most from their systems.

Maintain customer relationships: Excellent communication skills at all levels to maintain Cyberhomes' reputation for professionalism.

Person specification

The right candidate will be a highly-organised individual with project management skills and relevant AV industry experience. CEDIA, Crestron and Control4 certification a distinct advantage.

A thorough working knowledge of the following is essential: Control4, Crestron, TCP/IP networking and Lutron lighting control systems. Savant Pro and/or home cinema design and acoustic treatment experience would also be an advantage.

You will have excellent time keeping, attention to detail and take pride in the quality of your work.

A full clean driving licence and knowledge of the standard Microsoft Office suite are essential.

Rewards

As well as a competitive salary, bonus scheme, mobile phone and company vehicle this is a great opportunity for the right person to join a team who are fundamental to the growth of Cyberhomes' business. Training on new products and technologies will be provided where appropriate.

Although primarily based in London or Thame, you will be expected to travel throughout the UK (with some international travel) for extended periods of time.

Company info

Cyberhomes is an award-winning installer of home automation and entertainment systems. We are active members of CEDIA and won the 2015 ITSA Award for the '*Best Whole House Integration*' and the 2014 CEDIA Award for '*Best Dressed Rack*'. With a background in the broadcast industry, we take pride in our attention to detail to deliver amazing systems that consistently exceed our clients' expectations.

Application

Please email your CV, along with details of why you are suitable for this role, to hello@cyberhomes.co.uk

Deadline for applications is 29th February, 2016.
